## Full Stack Developer

✉ garglakshya2063@gmail.com ☎ 9815672902 📍 Chandigarh 🌐 Lakshya Garg 🔄 LakshyaGarg26

### Education

<b>B.E. (Cse)</b> , Chitkara University CGPA: 9.77/10	2020 – 2024 Punjab
<b>XII</b> , PML SD Public School Percentage: 80.2%	2019 – 2020 Chandigarh
<b>X</b> , St. Xavier,s Sr. Sec. School Percentage: 87%	2017 – 2018 Chandigarh

### Skills

Java	HTML-CSS
Javascript	React
C++	Ajax
Express JS	

### Professional Experience

<b>Java Developer</b> , 1Gen <a href="#">🔗</a>	12/2023 – present
<ul style="list-style-type: none"><li>Experienced in developing RESTful APIs and proficient in Spring MVC architecture for efficient web application development.</li><li>I've optimized multiple website pages, significantly reducing loading times and enhancing overall user experience.</li></ul>	

### Projects

#### Crypto Currency Exchange Website

A cryptocurrency exchange is a platform that facilitates its customers to see the prices of cryptocurrencies instantly. Using such exchange platforms, users can trade one cryptocurrency for another. For example, they can sell their Ethereum for Bitcoin or Litecoin for a Binance coin.  
All the prices are live as it is fetched using the API.

#### Employee Payroll System (Java)

I have created an employee payroll system using the oops concept. In this project, we can add the employee's name, id, and salary for full-time employees. For part-time employees, we can add their name, id, hours worked, and hourly rate.

#### Video-Hub (React)

Video Hub allows you to showcase your videos in a set of organized, branded, and distraction-free pages. It's like your own YouTube channel without all the noise from off-brand, unrelated content. Showcase a collection of videos to prospects, customers, or employees. I have use Chakra UI to do the styling and to make it responsive

#### Hotel Booking Website (React), YAATRIGAN

Made it as a college project using React JS. Using this website we can book hotels and resorts in different places.

#### Grocery Delivery Website

I have created a website to deliver groceries. The main idea behind this project was to boost the business of local vendors from whom our delivery partners would buy the grocery for us and deliver it to us.

## Certificates

- Coding Ninjas Advanced Web Development
- Coding Ninjas Object Oriented Programming Java
- AWS Cloud Computing
- Cisco Introduction to Cybersecurity

## Languages

English

Hindi

## Soft Skills

Leadership

Teamwork

Time Management

Hard work and Smart Work

Problem Solving

Solution Focus

## Courses

**Web Development**

**Data Structures and Algorithms**

**Cyber Security**

**Operating System**

**Computer Networks**

## Interests

- Cooking
- Sketching
- Shooting
